

C₁
C9X
Figure 6. Table of exemplary indications, routes, vehicles for administration, and decoy combinations.

Please amend page 6, lines 6 and 7 to read as follows.

C₂
Exemplary transcription factors and related cis elements, the cellular processes impacted, and therapeutic indications include those listed in Figure 5.

✓
Please delete the table on pages 6-7.

Please amend page 10, lines 20-23 to read as follows:

C₃
Optimal treatment parameters will vary with the indication, decoy, clinical status, etc., and are generally determined empirically, using guidance provided herein. Several exemplary indications, routes, vehicles of administration, and decoy combinations are disclosed in Figure 6.

Please delete the table on pages 10-11.

In the Drawings:

Please add the enclosed Figures 5 and 6, which correspond to the tables deleted above.
